

DRAFTING TECHNICIAN

Are you looking to pursue a challenging career while enjoying an active outdoor lifestyle? Do you seek adventure both in life and your career? We are proud to have our home office based in Campbell River, BC; a beautiful community located on the East side of Vancouver Island where you can enjoy the snow and surf all in one day!

Our Design team work within the construction management team to create and coordinate Building Information Models for large multi-family projects throughout Western Canada. We are currently looking for a talented draftsman to join the team in the preparation of architectural designs and drawings using REVIT.

RESPONSIBILITIES

- Develop and prepare architectural designs and drawings from preliminary concepts, sketches and specifications
- Create 3-dimensional BIM models for use by various departments and teams
- Produce, organize and distribute all building plans including development permits, building permits issued for construction and site instructions
- Complete documentation packages and produce drawing sets based on current project and team needs
- Maintain current knowledge of National and Provincial building codes

REQUIREMENTS

- Minimum post-secondary diploma in drafting, architecture or equivalent
- Ability to create presentation drawings with perspectives using REVIT
- Experience with residential construction (multifamily wood frame construction preferred)
- Ability to create preliminary designs or conceptualization of design
- Effective verbal and written communication skills

BENEFITS

- Employer paid medical, dental, and vision coverage
- \$170 yearly fitness benefit
- Registered Pension Plan
- Breakfast and Lunch provided daily
