

*Iverson Forest Management Inc. (IFMI) is committed to providing our clients and partners with high quality, value added forest engineering services designed to specifically meet and exceed their specific operational requirements. Our dedicated and creative people will consistently allow us to provide differentiated service and share our professional expertise with our clients.*

*Our employees are encouraged to continually develop their skills and strive for personal and professional growth. This allows us to provide our diverse services to clients and partners. It keeps us versatile, dynamic and forward thinking.*

*In our company there is a sense of community. We are proud to be contributing members of a responsible forestry industry. We base all interactions with our clients and business partners on the intention of establishing long-term and mutually rewarding working relationships.*

*Most importantly, we remain committed to our forests. We stay focused on the need to maintain visual quality, water quality, cultural heritage resources, maintaining biological diversity and environmental integrity of the forest ecosystem while partnering with our clients to sustain a stable and economically prosperous enterprise.*

## **Junior & Intermediate Forest Engineers**

**Iverson Forest Management Inc.** (IFMI) is a dynamic forestry consulting firm which has been operating for over 20 years throughout BC. We have developed strong relationships with First Nations, forest licensees, Economic Development Corporations and many other industry Associates. This has allowed us complete a diverse and interesting array of projects in the Forestry and Natural Resource Development sectors. Above all, we take pride in delivering quality services to our clients, in a safe and efficient manner, while fostering a team oriented environment. IFMI has two offices on Vancouver Island, with our headquarters located in Duncan and our northern operations based in Campbell River.

We are currently seeking individuals to join our team as Junior and Intermediate level Forest Engineers, based out of our **Campbell River/ Port Hardy** operation. These positions are available immediately, and will provide an excellent opportunity for career development in this field.

**As a Junior or Intermediate Forest Engineer**, you will assist our Senior Forest Engineers in all elements of cutblock and road development. Duties will include field reconnaissance, cutblock and road layout, traversing, stream classification, collection of appraisal data, GPS surveys, bridge site plan surveys, traverse note entry and map building in RoadEng. Candidates will be considered to fill these positions based on the following preferred qualifications:

### **Junior Forest Engineer:**

- Preferably has prior forest engineering experience (willing to train the right individual);
- Physically fit;
- A valid BC driver's license;
- Good communication skills and a desire to learn.

### **Intermediate Forest Engineer:**

- Minimum of 1 years forest engineering experience;
- Familiarity with forestry legislation and regulations in B.C. (e.g. FRPA, Forest Act)
- Proficiency with computer software including Word and Excel;
- GPS survey and RoadEng experience is an asset;
- A valid BC driver's license;
- Good communication skills and some experience in crew supervision

Above all, we are looking for individuals with a commitment to maintain a high level of safety, efficiency and quality in all aspects of work.

***We offer competitive wages, a comprehensive benefits package, and the opportunity for career advancement.***

We would like to thank all applicants; however only those considered for an interview will be contacted.
